CATARRH, DEAFNESS, ASTHMA,

Cured at Home by a New, Quick, and Reliable Method.

CATARRH. Thousands suffer and die from the effects of Catarrh every year. Catarrh of the head and throat develops Ear, Throat, and Sinus Catarrh. Ear Catarrh causes Deafness and Headaches. Throat Catarrh leads to Bronchitis and Consumption. Sinus Catarrh causes Hayfever, Indigestion, and Cancer of the Stomach. With these the sufferer from Catarrh, each year, loses \$1000.00. "For 25 years I suffered with Asthma, and was unfit for work of any kind. My head and lungs stopped up with phlegm, rattling, and coughing day and night, and I could not sleep, but had to sit up in a chair all night. In June and July I was in a hospital. The treatment I received there cured me. I am now well and healthy. I can do any kind of work I wish. I have never been troubled with Asthma since. I have written this for the benefit of others who are suffering from this disease. Write today." My delighted friend, JAMES BRADSHAW.

ASTHMA. Cured by Dr. J. W. Williams. "For 25 years I suffered with Asthma, and was unfit for work of any kind. NERVOUS DEAFNESS and chronic complaints cured at home. Symptom black eye whether you take treatment or not. Write today.

DEAFNESS CURED. Prof. Col. Nov. 11, 1902. Dear doctor—I made use of your Ear Massager. Engine and it worked wonders in my case. I was so deaf I could not hear a man's voice within six feet of me. I could hear nothing but a distant head noise. That cleared up all day and kept me awake at night. I was sleeping, but now I am a firm believer in your treatment. Write today.

JOIN THE CROWD.

The New Northwest is increasing from immigration, by 200,000 people yearly. This region offers a field for farmers, stock raisers, miners, lumbermen, millers, fruit growers, and all classes of labor. The Cody-Wyoming extension into the Big Horn Region offers a splendid opening for the live stock and wool business and for farming by irrigation.

The industrial expansion that is now the basis of wealth in the East, will be repeated in the Northwest. Give some thought toward a home in Nebraska or Minnesota, the Dakotas, Montana, Northwestern Wyoming, Northern Idaho, Washington, the Puget Sound and Columbia River region.

NORTHWEST TRAIN TO TAKE.

"The Burlington-Northern Pacific Express" is the only through train into the Northwest in connection with the Northern Pacific Railroad. Through coaches, chair cars, (seats free), through tourist sleepers over this short line and the saver to the Northwest. Connecting train from Denver to Alliance in connection with this great through train. You can reach the Northwest either via Kansas City, St. Joseph or Denver, by the Burlington Route.

TO THE NORTH.

The Burlington has two trains daily to St. Paul and Minneapolis, reaching the valuable territory of Minnesota and the Dakotas traversed by the Northern Pacific and Great Northern Railroads. The Burlington is the main traveled road to the Northwest and North. Investigate the Northwest by addressing either the Industrial Department of the Great Northern or Northern Pacific Railroads at St. Paul, or the undersigned.

A Ten Acre Farm.

Ten acres of land properly managed can be made to produce the following and much more: Five hundred chickens, value \$150; 100 turkeys, value, \$100; 500 pounds of honey, value, \$50; one acre of strawberries, value, \$80; one acre of potatoes, value, \$40; one acre of melons, \$30; one acre of apples, pears and peaches, value \$100; one acre of onions, value, \$30; one acre of garden truck of all kinds, value \$80; one acre of cabbage, value \$25; one acre of grapes, value \$50; one acre of blackberries, value \$50; one acre of beans, value \$30. Total, \$805. Deduct from this the sum of \$100 to buy feed for poultry and \$50 more for use of land, would leave \$655. How many renters on 160 acres of land make more than that, counting one year with another?

The Great Newspaper of the Great West.

In inviting attention to the merits of the Kansas City Star it seems proper to point to a few facts demonstrating its very great success as a newspaper.

The Star is the largest customer of the Kansas City post office. Last year it paid Uncle Sam over \$58,000 for postage.

Though it receives daily the full news reports of the Associated Press—the greatest news gathering organization in the world—it receives in addition such an abundance of special dispatches that it is the largest patron of both the Western Union and Postal telegraph companies in Kansas City.

It consumes 1,500,000 pounds of white paper a month.

It is printed upon five great Quadruple Perfecting Presses—the largest equipment of newspaper printing machinery in the United States west of Chicago.

Such facts as these indicate large revenues and vast expenditures.

To print in Kansas City—the seventh city in size in the United States—a newspaper which is not out-ranked by any other, anywhere, as is the fact in the case of The Star—is an achievement that is only possible when the friendship and appreciation of the reading public is attracted and maintained upon a great scale. A multitude of readers, making the advertising space valuable to merchants and manufacturers and thereby producing the large revenues necessary for the expense of publishing such a paper, can be obtained only by years of persistent endeavor to improve and develop the publication to the utmost limit of its possibilities.

That, in brief, has been the history of The Kansas City Star. From the day it earned its first profits it has steadily turned back its revenues into improving its quality and scope. This policy, consistently adhered to for twenty-two years, has brought its reward. The Kansas City Star is now unquestionably the Great Newspaper of the Great West. Its daily circulation is above 105,000. It was the first newspaper to give its readers a full week's issue, delivered by carrier, seven days for 10 cents. It was the first to establish a weekly edition for 25 cents a year. The Weekly Star—containing the concentrated news of the world and good reading for the whole family—has over 225,000 paid-in-advance subscribers.

The Star's newsgathering facilities are unexcelled and the news is untainted by prejudice or partisanship. Its market reports are complete, intelligent and accurate. Its miscellaneous reading matter is chosen with the utmost care.

Its illustrations add value to its news and literature. Its editorial policy is for advancement and progress.

Its advertisers are the best and most trustworthy merchants and manufacturers, with a range of products meeting every need.

An Unprecedented Proposition.

The latest and most revolutionary innovation in journalism, made by The Star, is the addition of a regular morning newspaper—The Kansas City Times—and the furnishing of Evening, Morning and Sunday Editions to its readers with out increase of price—13 newspapers a week for 10 cents—by carrier delivery or by mail. This unprecedented proposition, which was an untried experiment in October, 1901, promptly demonstrated itself to be a success. First offered only to The Star's readers in Kansas City and its immediate suburbs, it is now extended throughout the whole range of The Star's circulation.

Evening, Morning, Sunday, 13 Issues 10 cents a week.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too tough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. Be sure that this picture is on the wrapper of every bottle of Scott's Emulsion.

SCOTT'S BOWNE, CHEMISTS.
409 Pearl St., N. Y. 50c and \$1; all druggists.

A burning desire to fill a high place, to do something unusual to attract public attention, to do that which must be accomplished with tremendous strain and stress of the faculties—a straining after effect, this morbid ambition is one of the curses of the age.—"Success."

If you want to supply yourself and family with good reading for the winter with less money than anywhere else, call at THE TRIBUNE office and get from three to five good papers for the price of one.

THE Toledo Blade

Toledo, Ohio.

New Press, New Stereotype Plant, New and Modern Appliances in Every Department. Enlargement of Building to Four Times its Present Size.

Before the close of 1902 the Toledo Blade will be installed in its new building, with a modern plant and equipment with facilities equal to any publication between New York and Chicago. It is the only weekly newspaper edited expressly for every state and territory. The News of the World so arranged that busy people can more easily comprehend, than by reading cumbersome columns of dailies. All current topics made plain in each issue by special editorial matter, written from inception down to date. The only paper published especially for people who do or do not read daily newspapers, and yet thirst for plain facts. That this kind of a newspaper is popular, is proven by the fact that the Weekly Blade now has over 178,000 yearly subscribers, and is circulated in all parts of the U. S. In addition to the news, the Blade publishes short and serial stories, and many departments of matter suited to every member of the family. Only one dollar a year. Write for specimen copy. Address
